- NextJs
- Git/Github
- i18n
- Css
- Bootstrap
- ReactJs
- TypeScript
- Sass

Projects

The New Code, *Enternship project* ⬈   08/2025 – 09/2025
- Built a **fully responsive UI** using **Tailwind CSS** and **Bootstrap components**, ensuring consistency across desktop, tablet, and mobile.
- Implemented **dynamic routing in Next.js** for course pages, improving scalability.
- Used **TypeScript** for type safety and maintainability, reducing potential runtime errors.

Save Your Land, *my graduation project* ⬈   2024 – 2025
Built with React, Bootstrap, and i18n
- Implemented multilingual support using react-i18next, enhancing accessibility for global users
- Designed and styled UI components with Bootstrap to ensure mobile-friendly and consistent design

Makeup Website ⬈   10/2025 – 11/2025
Designed and built a fully responsive makeup website using HTML, CSS, and JavaScript.The project highlights modern UI/UX design principles, product display components, and a mobile-friendly interface.
